## IMPORTANT MESSAGE REGARDING HOUSE NUMBERS

As of March 31, 1994, Chapter 286 of the Southampton Town Code requires that all Town residents display house numbers so that they are clearly visible from the street. The law requires that you use only the number assigned by the Town. **No other number should be displayed and no inspections will be done by the Building Division at properties without a house number.** If you have a different number for postal delivery, please file a change of address form with your post office immediately. If your tax bill does not list a street number, or if you have a question regarding the law or number assigned to you, please telephone Pat Raymond at the Assessor's Office, 283-6000, ext. 274.

The following is a description of the manner of display, style and size of the required house numbers:

### A. Manner of Display

- (1) **During the construction period.** The owner of a land parcel for which a building permit has been issued shall have the street address displayed on a sign or a post located at the front of the property. In the case of a flag lot, the number shall be displayed at the street entrance of the flag lot.
- (2) **Existing and newly completed structures.** The owner of an existing building or newly completed building shall have the street address number displayed by permanently affixing it to the front of the building, or painting numerals, letter or script, on the front of the building. If a building is not close enough to the street, or is not readily visible from the street, the street address number shall be permanently affixed to a sign, post or mailbox located at the front of the parcel or lot where the building is situate.

### B. Style and Size of Numbers

- (1) The numerals, letter or script used to display the street address number of the building shall be painted on a plaque to be affixed to the front of the building or on the front of the building itself, or made of metal or other durable material. The numerals, letters or script shall be at least three (3) inches in height. All street address numbers shall be displayed so as to be easily seen from the street by both pedestrians and drivers of vehicles.

**The proper posting of your house number will assist the Building Division during the inspection process and ensure prompt and timely inspections.**
